# KEY CLIENTS

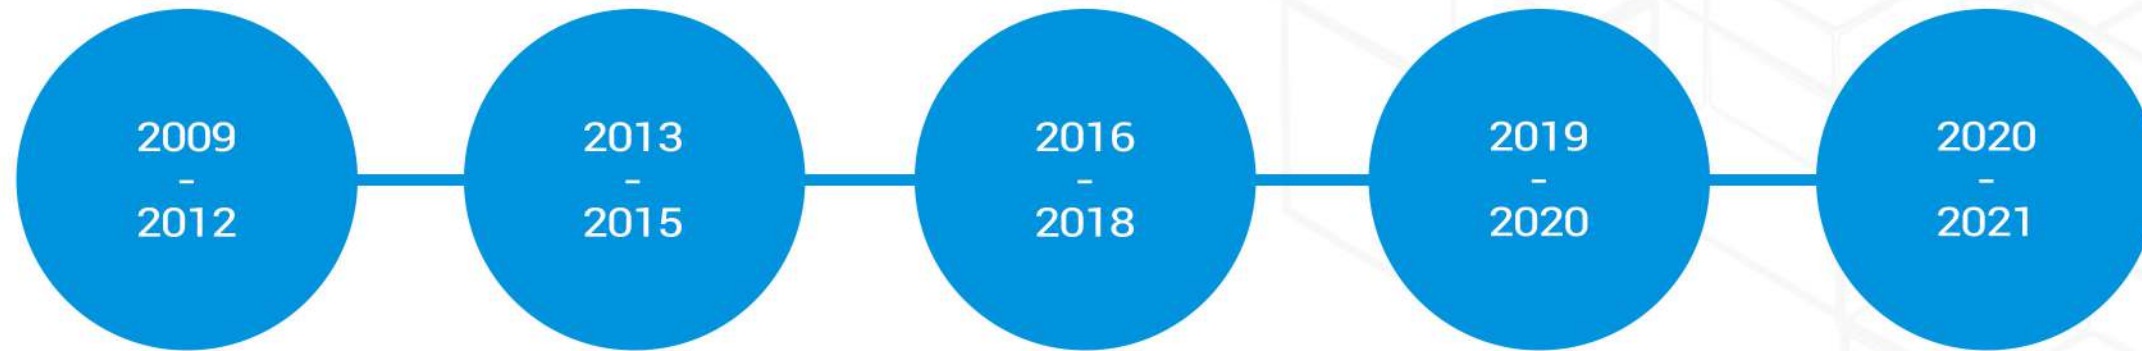

# WHAT WE DO

Coastal protection is vital in providing defense against flooding and erosion that is caused by waves, tides, winds, currents and littoral drift. With global climatic changes such as the rising of the sea level, coastal defense is needed now more than ever before. Through working on various projects, Cristallo Pvt Ltd has acquired both the knowledge and experience of various techniques in this field, which includes construction of hard structures such as seawalls, breakwaters, and groynes to protect exposed harbors and island beaches.

# COASTAL PROTECTION

## REVETMENT

Revetments are sloping structures placed at the shore in order to absorb the energy of incoming water.

## BREAKWATER

It is constructed in a body of water in order to break the force of waves and protect the surrounding land.

## GROYNES

Groynes work by trapping the sand in order to stop it from being washed out to the sea.

## BEACH RECLAMATION

In this process sand, lost through longshore drift or erosion is replaced from other sources.

## GEO TUBE PLACING

Geo tube is a large, tube-shaped bag made of weather-resistant geotextile and filled to form a coastal structure

## LAND RECLAMATION

It is the process of creating new land by filling with sand until the desired height is reached.

## SHEET PILING

Sheet piles are sections of sheet materials with interlocking edges that are driven into the ground to provide retention support

## CHANNEL & HARBOR DREDGING

Removal of varying levels of sediment, mud, trash, and other debris at the bottom of the channel

# COMMERCIAL SERVICES

## POLE PLACING

placing of poles beneath structures such as water bungalows, water villas and other sea structures.

## SEAGRASS REMOVAL

This is done by cleaning the beach from top down, removing seagrass without scooping up the sand in the process.

## LAGOON & REEF CLEANING

Cleaning lagoon & reef removing trash seaweed and grass from the sand

## UNDERWATER PIPELINE

Our divers are among the best in the business when it comes to setting up underwater pipelines.

LCT 250 RENTALS

HEAVY VEHICLE RENTALS

# ABOUT OUR MANAGING DIRECTOR

Ihusan Rasheed is the Managing director and Founder of Cristallo Private Limited.

Creating Cristallo was not an easy feat, he began this journey with utmost determination and dedication towards his vision and created Tides Cafe' & Bistro as and Cristallo. Having achieved so much as a businessman, he truly believes that anything is possible with hardwork, dedication, discipline and knowledge.

“

We started Cristallo Private Limited in 2012. Back then we had no type of equipment or vehicles, we had nothing. The only thing we did have was amazing, hardworking and dedicated team members.

Today we are at the height of MVR 50+ million worth equipments and vehicles, working on significant projects that has made Cristallo Private Limited a well-known and trusted company in the Maldives.

In only 9 years we have achieved so much, and believe there is still so much more to achieve.

”

**IHUSAN RASHEED**

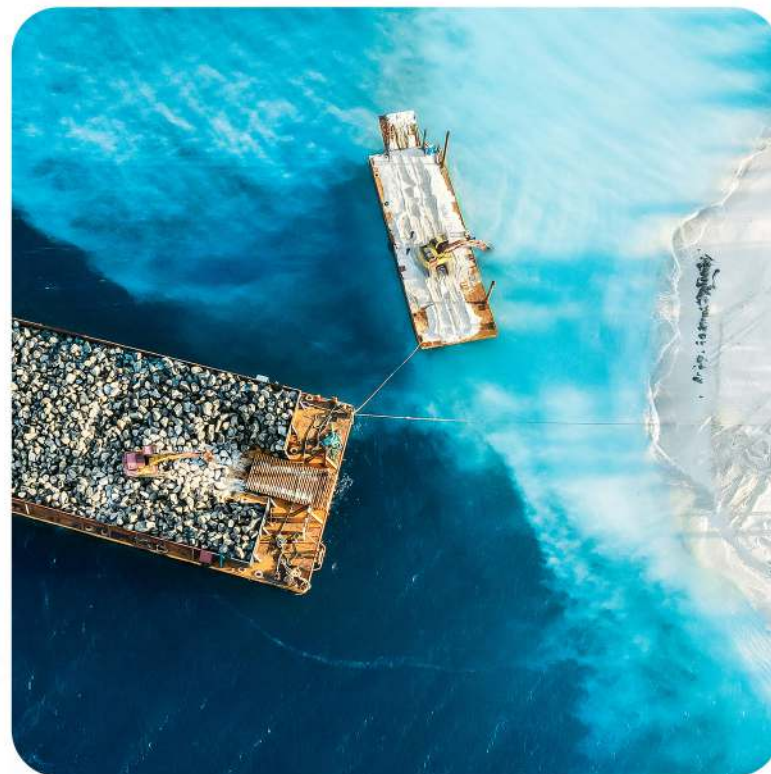

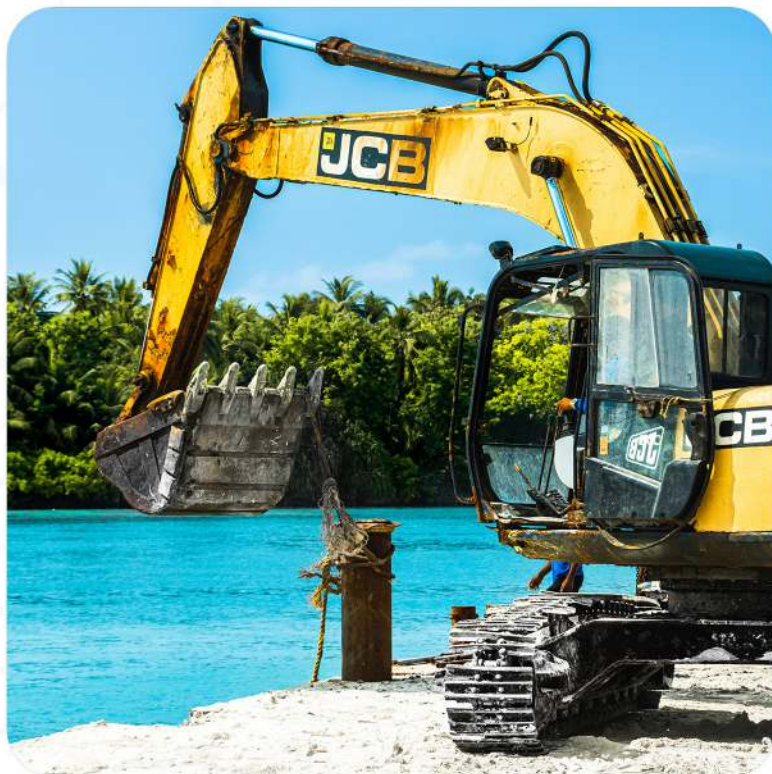

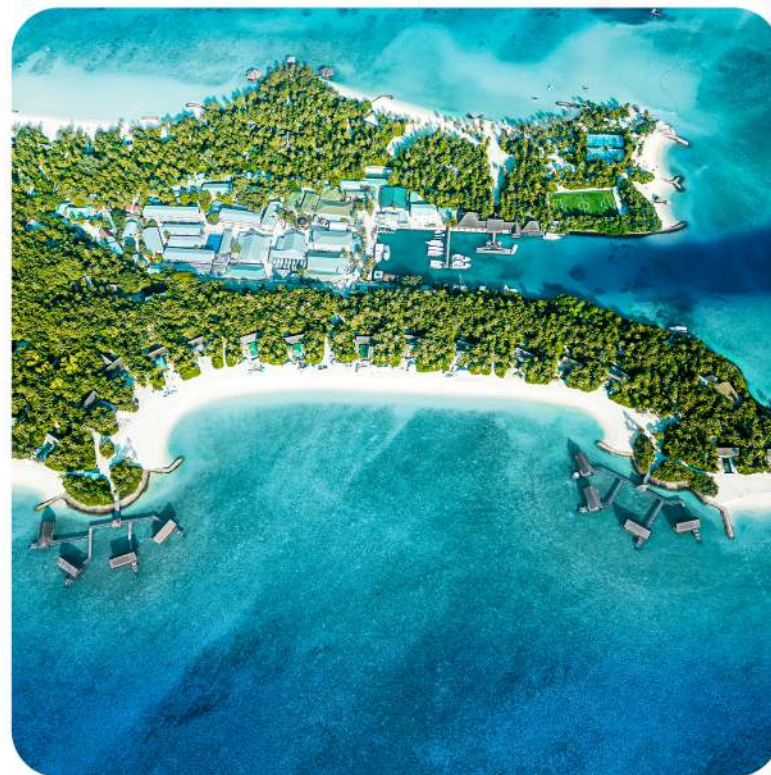

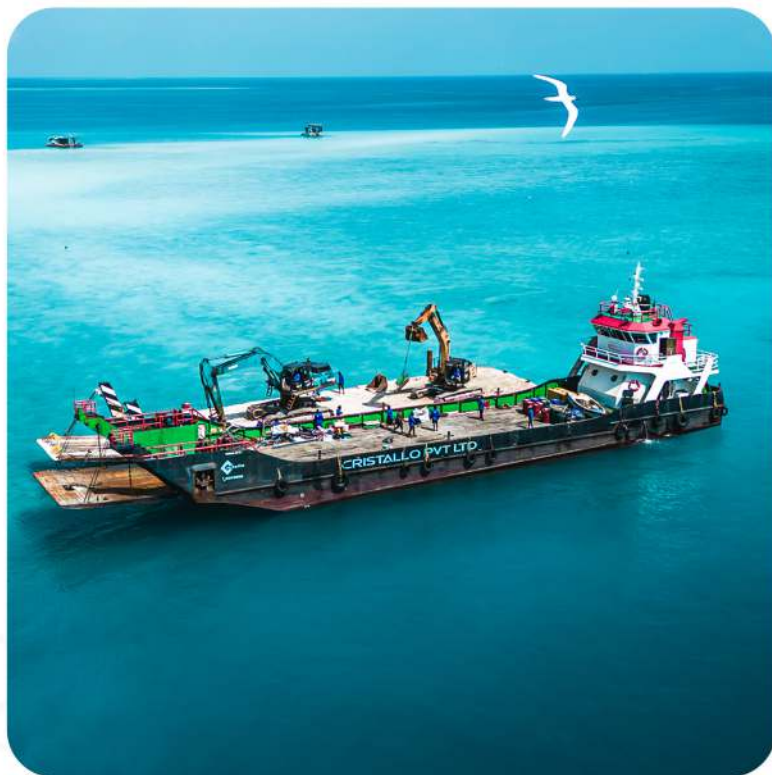

Managing Director
